Your Next Customers Are Out There.

You know your existing customers. But reaching beyond them can be difficult. You may not know which pharmacies are in a territory, reaching hundreds or thousands of potential buyers takes time, and entering a new territory can mean starting almost from zero.

Your products can only sell where buyers know you exist.

We help you find them, reach them and grow into new territories.

Bigger opportunities.*

We Put Your Products in Front of the Right Buyers.

PharmaBridge combines its extensive pharmacy & OTC seller database with consistent WhatsApp outreach to help you reach, engage and grow your market across Ghana.

01 Find

We identify pharmacies and medicine sellers in the territories you want to reach.

02 Reach

We run personalised outreach through your business WhatsApp channel.

03 Grow

Interested buyers become conversations and orders, while the campaign can continue into new territories.

Targeted Outreach

Reach the right buyers in the right locations.

Consistent Engagement

Keep your brand top of mind.

More Opportunities

Turn conversations into orders.

Nationwide Coverage

All regions in Ghana.

More buyers. Greater sales!

From Territory to Order.

Our process is simple, focused and designed to get your products in front of the right buyers — fast and efficiently.

*Right buyers.
Right territories.
Real growth.*

1 Choose

Territory + Products

You decide where you want to grow and what products you want to promote.

Your goals.
Our focus.

2 Find

Target Buyers

PharmaBridge identifies pharmacies and medicine sellers in the territory you've selected.

Verified pharmacies
& OTC sellers.

3 Reach

WhatsApp Outreach

We send personalised messages about your products — consistently and professionally.

Personalised.
Consistent. Effective.

4 Respond

Questions + Orders

Interested buyers respond, ask questions and place orders. We capture the information and pass it to you for follow-up.

Conversations
turn into orders.

The right buyers. The right time.

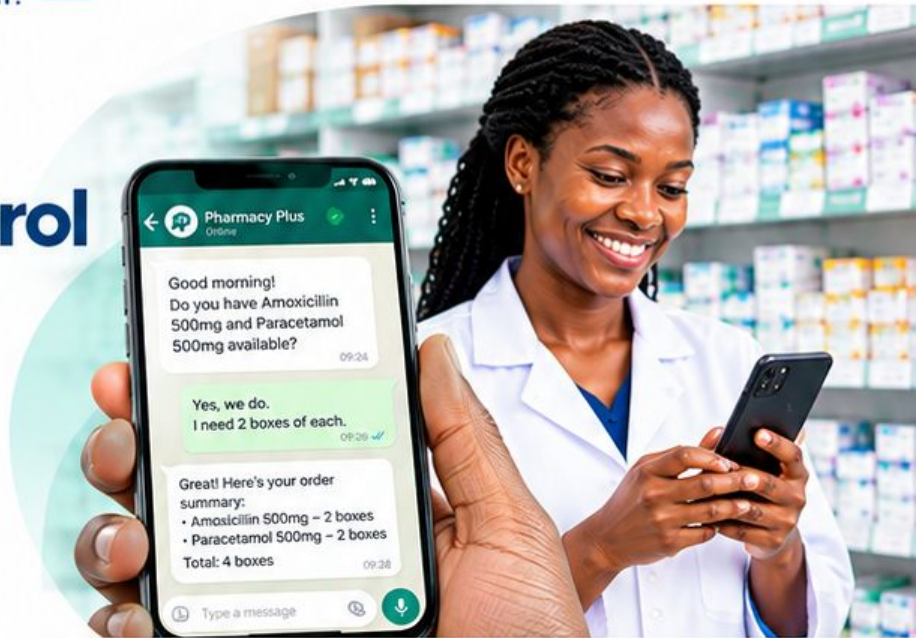

With PharmaBridge, your products get in front of the pharmacies and OTC sellers who are ready to buy — in the territories you want to grow.

*More reach.
More conversations.
More orders.*

You Stay in Control of the Sale.

When a pharmacy or OTC seller responds to your campaign, you decide how the conversation continues and how the order is handled. Here are your options:

1

Option 1

Direct Handover

The pharmacy responds → your team takes over the conversation → you collect and process the order.

Pharmacy responds

Your team takes over

You process the order

2

Option 2

AI-Assisted Order Capture

AI extracts the requested medicines and quantities → the pharmacy confirms the order summary → the order is handed to you for processing.

Pharmacy responds

AI extracts items & quantities

Pharmacy confirms order

You process the order

Order Confirmed

Amoxicillin 500mg - 2 boxes
Paracetamol 500mg - 1 box

The customer is yours.

- ✓ You fulfil the order.
- ✓ You invoice the pharmacy.
- ✓ You receive the payment directly.

PharmaBridge never handles payment.

Start Where You Are. Grow From There.

We make it easy to get started and even easier to scale. Choose the outreach option that fits your goals and budget, then expand as you grow.

*More reach.
More conversations.
More orders.*

STARTER

Steady, gradual outreach.

We send approximately 20–30 messages per day, allowing a territory to be reached progressively while giving the team time to handle responses.

SCALE

Faster outreach.

We use the official WhatsApp Business platform for substantially higher messaging volumes and faster territory coverage.
