Smarter
Purchasing

Smarter data. Stronger pharmacies.

PharmaBridge transforms your sales records into clear, actionable insights so you can make better business decisions and grow with confidence.

What We Do

We analyze your pharmacy or OTC sales data to uncover meaningful insights across your business — from financial performance to product demand.

Sales Performance

Track revenue, growth and sales trends.

Revenue & Profit Analysis

See what you earn, and what you keep.

Product Performance

Identify your best and underperforming products.

Stock Movement

Know what's moving, what's slowing down, and when to restock.

Expense Analysis

Understand your costs and control your spend.

Pricing & Margin Analysis

Find low-margin products and pricing opportunities.

Demand Patterns

Make smarter purchasing and stocking decisions.

Actionable Insights

Turn data into clear recommendations for growth.

Understand Your Financial Performance.

Know what your business is really earning.

PharmaBridge analyzes your sales and cost data to provide a clear picture of your financial health — from revenue and cost of goods to net income.

Key Financial Highlights

Line Item	GHS
Revenue	16,209.00
Cost of Goods Sold (COGS)	(10,642.95)
Gross Profit	5,566.05
Gross Margin %	34.3%
Rent	(800.00)
Staff wages	(1,200.00)
Utilities (electricity/water)	(150.00)
Transport/logistics	(100.00)
Miscellaneous/supplies	(80.00)
Total Operating Expenses	(2,330.00)
Operating Income (EBIT)	3,236.05
Tax Expense (25%)	(809.01)
Net Income	2,427.04

The Bigger Picture

See how your revenue turns into profit.

Revenue vs. Net Income

Track your cumulative performance over the month.

See where your money comes from, where it goes, and what remains.

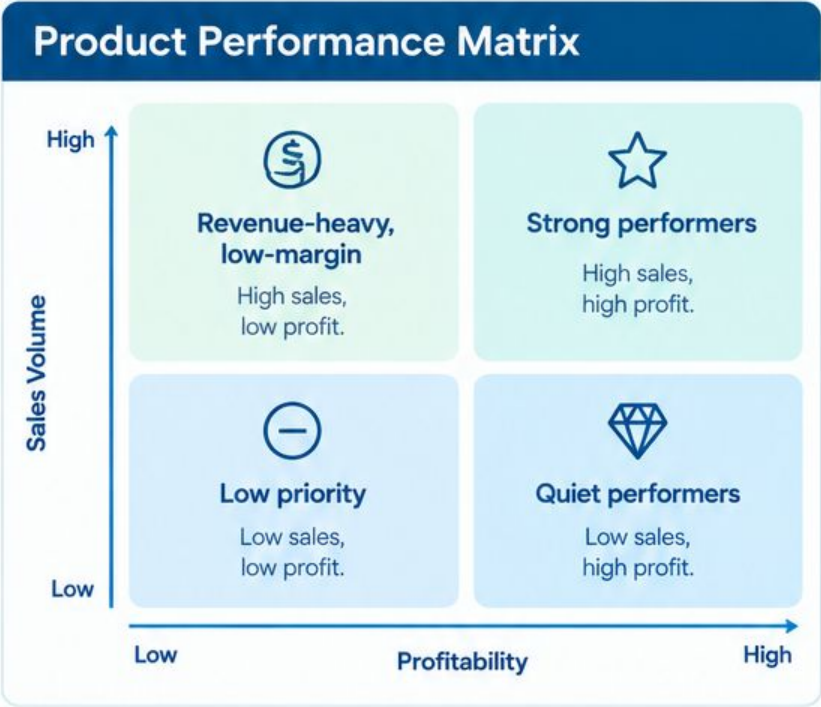

Better visibility. Smarter decisions.

- ✓ Real-time financial insights
- ✓ Identify cost pressure points
- ✓ Plan for sustainable growth

Know Which Products Drive Your Business.

Sales volume does not always mean profitability.

PharmaBridge compares revenue, profit, margin and sales ranking to uncover products whose financial contribution differs from their sales volume.

What We Analyze

- 

Revenue
Total sales value generated by each product.
- 

Profit
Actual contribution to your bottom line.
- 

Margin
How much you keep after costs.
- 

Sales Rank
How products perform in terms of volume.

Example: Product Performance Snapshot

Product	Revenue (GHS)	Profit (GHS)	Margin %	Sales Rank	Profit Rank
Zithromax Capsules	2,880.00	945.00	32.8%	1	1
Cytotec Tablets	840.00	824.85	98.2%	4	2
Provera 5mg Tablets	680.00	614.00	90.3%	7	3
Warticon Cream	2,400.00	150.00	6.3%	2	10
MAALOX SACHET-20s	126.00	0.00	0.0%	23	27

- 

Key Insights
- ✓

12 of 27 products (44%) generate ~80% of revenue.
- ✓

10 of 27 products generate ~80% of total profit.
- ✓

Some high-selling products have low margins, while smaller sellers can be highly profitable.

Focus on what truly moves your profit.

The right products.
The right decisions.

Understand Demand & Stock Movement.

Know what is moving.
Know what is slowing down.

PharmaBridge tracks product movement, sales velocity and stock performance so you can stock smarter and avoid costly overstocking or stockouts.

Key Metrics Tracked

Fast-moving products
Items that sell quickly and consistently.

Slow-moving products
Items with low turnover rates.

Units sold
Total quantity sold per product.

Active selling days
Days a product was sold in the period.

Sales velocity
Units per day and units per active day.

Revenue generated
Total sales value per product.

Profit generated
Actual contribution to your bottom line.

Sales Velocity Snapshot

Product	Units/Day	Units/Active Day	Trend
Zithromax Capsules	12.4	18.2	↑
Cytotec Tablets	8.7	14.6	↑
Provera 5mg Tablets	6.1	11.3	↑
Warticon Cream	3.2	6.8	—
MAALOX SACHET-20s	1.1	2.4	↓

Stock Movement Overview

Insight

Fast-moving products need consistent stock levels, while slow-moving products require careful purchasing to avoid tying up capital.

Better visibility into product movement can support better stocking and purchasing decisions.

The result?

- ✓ Reduce stockouts
- ✓ Minimize excess inventory
- ✓ Improve cash flow
- ✓ Maximize product availability

Find the Opportunities Hidden in Your Data.

Turn insights into smarter decisions.

PharmaBridge uncovers the key opportunities in your sales and financial data — from low-margin products to expense pressure and high-potential products — so you can improve profitability and drive sustainable growth.

1. Margins

Not every high-selling product is a high-margin product.

PharmaBridge identifies products with low catalog markups and helps you review pricing, so you can protect your margins and maximize profitability.

Example

Low-margin products identified:

2.3% | 6.7% | 7.1%

Catalog markups

Top Low-Margin Products (Example)

Product	Margin %
ZITHROMAX ORAL CAPSULES	2.3%
Procomil Spray	6.7%
Warticon Cream	7.1%
Wellwoman Original	13.2%

2. Expenses

Know when your costs put pressure on revenue.

PharmaBridge analyzes daily expenses (COGS + Opex) to identify periods where your operating costs exceed revenue, so you can take timely action.

13 of 28

trading days with expenses exceeding revenue (example).

Daily Expenses vs. Revenue

3. Product Optimization

Focus on what truly moves your profit.

PharmaBridge combines sales velocity with profit contribution to identify products that both sell and generate meaningful profit — so you can stock smarter and invest in what works.

Optimal Product Score (Example Factors)

The Opportunity

- Identify high-potential products.
- Eliminate or reduce low-performing products.
- Improve pricing and margin structure.
- Make data-driven purchasing decisions.

From numbers to decisions.

Better insights.
Higher profitability.
A healthier tomorrow.

Your Records Already Contain Valuable Business Intelligence.
